## STATUS ASSESSMENT RESPONSE FORM

| Species (Botanical name): Citrullus lanatus  |  |  |  |  |  |  |
|--|--|--|--|--|--|--|
| (Common name): <u>Citron, Watermelon</u>   |  |  |  |  |  |  |
| Where the voucher specimen is held: FLAS, FTG, USF, FSU  |  |  |  |  |  |  |
| Assessment   Reassessment completed by: Deah Lieurance   |  |  |  |  |  |  |
| Date assessment started: 7/19/2017 Date assessment completed: 7/19/2017  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |
| INSTRUCTIONS  Either check appropriate response or enter it in the designated space.  Attach additional sheets with evidence as necessary using appropriate section numbers. |  |  |  |  |  |  |
| SUMMARY OF ASSESSMENT RESULTS  |  |  |  |  |  |  |
| BY STATE If species is NOT invasive in Florida, check one of the following three conclusions:  |  |  |  |  |  |  |
| <u>From Section A</u> <u>Automatic Exemption</u>   |  |  |  |  |  |  |
| ☐ Use Predictive Tool ☐ Prohibited   |  |  |  |  |  |  |
| ✓ Not considered a problem species at this time  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |
| BY ZONE North: Central: South Index  |  |  |  |  |  |  |
| Score I = : : M =  |  |  |  |  |  |  |
| Category $I = : : P = : : M = V =$   |  |  |  |  |  |  |
| Conclusions North  |  |  |  |  |  |  |
| Central  |  |  |  |  |  |  |
| South  |  |  |  |  |  |  |

## In case of incomplete assessment:

Where did assessment stop?

Who could provide the answer to this question?

| <u>Automat</u>  | tic Exemption                                 |  |  |  |  |
|---|---|--|--|--|--|
| Is this species listed on any federal or state noxious or prohibited plant lists? |   |  |  |  |  |
| ☐Yes  | Under "BY STATE" on page R-1 check Prohibited |  |  |  |  |
| ☑ No  | Go to Section I-a below                       |  |  |  |  |

## **Step-by-Step Assessment Responses**

| 0000000 |   |  |  |  |  |  |  |
|---------|---|--|--|--|--|--|--|
| I-a     | Current Ir  | nvasion in Florida   |  |  |  |  |  |
| 1.      | Is there a proposed or new use for a species that would result in higher propagule pressure* in Florida? For example, cultivation of ≥2 contiguous ac of a species for bioenergy (corresponding to DPI biofuel rule), or commercial cultivation of a species present in Florida for a new use, or increase in acreage cultivated from 1-10 ac to 10 times that acreage (10-100 ac), 10-100 ac to 5 times that acreage (50 to 500 ac), or >100 ac to 2.5 times that acreage. |  |  |  |  |  |  |
|         | Yes   | Use the Predictive Tool  |  |  |  |  |  |
|         | <b>✓</b> No   | Go to question I-a 2   |  |  |  |  |  |
| 2.      | Does this   | species occur in any natural areas of Florida?   |  |  |  |  |  |
|         | ✓ Yes   | Attach distribution records and Go to question I-a 3   |  |  |  |  |  |
|         | ☐ No  | Go to Section A  |  |  |  |  |  |
| 3.      | Does it <b>ONLY</b> occur in natural areas of Florida because it has persisted from its previous cultivation?   |  |  |  |  |  |  |
|         | Yes   | Attach evidence of previous cultivation for each site and Go to Section A                                    |  |  |  |  |  |
|         | <b>✓</b> No   | Go to Section I-b  |  |  |  |  |  |
|         |   | Section A is on page R-3 and Section I-b is on page R-4  |  |  |  |  |  |
|         |   | ☐ Check box if distribution records are attached ☐ Check box if evidence of previous cultivation is attached |  |  |  |  |  |

| Section A      |  |  |  |  |  |  |  |
|----------------|--|--|--|--|--|--|--|
| A1             | Does this species hybridize with any Federal or Florida-listed Endangered or Threatened species, Species of Special Concern, or economically important species (e.g., exhibit pollen /genetic invasion)? |  |  |  |  |  |  |
|                | Yes  | Provide <i>information below</i> . Enter a conclusion on page R-17 of <b>No</b> unless limited use approved. Go to Section D for details on how to make a proposal for specified and limited use for the species.      |  |  |  |  |  |
|                | ✓ No   | Go to question A2  |  |  |  |  |  |
| If yes         | s, then provide  | le name of listed or economically important species & information sources:   |  |  |  |  |  |
| A1  If yes  A2 | A2 Has this species been introduced to Florida within the last 10 years if herbaceous, or last 20 years if woody?  |  |  |  |  |  |  |
|                | Yes  | Use Predictive Tool and so indicate on page R-1  |  |  |  |  |  |
|                | <b>✓</b> No  | Highlight attached distribution records that show presence in Florida before 10 or 20 years ago or attach other evidence and <b>Go to question A3</b>  |  |  |  |  |  |
| A3             | A3 Does this species have a record of causing problems in other regions with similar habitats and climate to Florida?  |  |  |  |  |  |  |
|                | Yes  | Provide evidence below, Use Predictive Tool and so indicate on page R-1  |  |  |  |  |  |
| If yes         | ✓ No   | Enter a conclusion of Not considered a problem species at this time and may be recommended by IFAS faculty on page R-1 but reassess if invasion of natural areas is recorded or within 10 years, whichever is earlier. |  |  |  |  |  |
| If yes         | s, then <i>give ev</i>   | vidence of where and what problems this species has caused:  |  |  |  |  |  |
|                |  |  |  |  |  |  |  |
|                |  |  |  |  |  |  |  |
|                |  |  |  |  |  |  |  |
|                |  |  |  |  |  |  |  |
|                |  | Section D is on page R-19  |  |  |  |  |  |

| I-b <u>Invasion Status in Three Zones of Florida</u>   |   |                                      |                           |                              |  |  |
|--|---|--------------------------------------|---------------------------|------------------------------|--|--|
| Check responses to the following questions for each zone (north, central, south) separately.   |   |                                      |                           |                              |  |  |
| For "Yes" responses to questions 1-3, <i>distributional evidence of invasion</i> (forming self-sustaining and expanding populations within a plant community with which it has not previously been associated) <i>must be attached and distinguished for each zone</i> . |   |                                      |                           |                              |  |  |
| 1.   | Does species exist in areas outside its current, or former, cultivation in this zone?  If Yes Go to question I-b 2  If No Go to question I-b 4  | North<br>Yes No<br>☐ ✓               | Central<br>Yes No<br>✓ □  | South Yes No                 |  |  |
| 2.   | Is species invading in this zone <b>ONLY</b> when natural disturbance regime and scale have been altered?  If <i>Yes</i> <b>Go to question I-b 3</b> If <i>No (or unknown)</i> <b>Go to Section II-a</b>  | North Yes No                         | Central<br>Yes No<br>☑ □  | South Yes No                 |  |  |
|  |   |                                      |                           |                              |  |  |
| 3.   | Has this species ever been <b>known</b> to persist if the natural regime is resumed and the natural flora/communities recover?  If <i>Yes</i> (or unknown) <b>Go to Section II-a</b> If <i>No</i> <b>Go to question I-b 4</b>   | North Yes No                         | Central<br>Yes No<br>□ ☑  | South<br>Yes No<br>□ ☑       |  |  |
| <ol> <li>4.</li> </ol>   | if the natural regime is resumed and the natural flora/communities recover?  If Yes (or unknown) Go to Section II-a   |                                      | Yes No                    | Yes No                       |  |  |
|  | if the natural regime is resumed and the natural flora/communities recover?  If Yes (or unknown) Go to Section II-a  If No Go to question I-b 4  Are there other zones in which this species has invaded or persisted after restoration?  If Yes indicate I = 0 for this zone  on page R-1 then Go to Section III-b | Yes No  North Yes No  Ves No  Ves No | Yes No  Central Yes No  V | Yes No  South Yes No  Yes Vo |  |  |

Check box if distribution records by zone are attached
