| I-a | I-a <u>Current Invasion in Florida</u> | | | | | | | |
| 1. | Is there a proposed or new use for a species that would result in higher propagule pressure* in Florida? For example, cultivation of ≥2 contiguous ac of a species for bioenergy (corresponding to DPI biofuel rule), or commercial cultivation of a species present in Florida for a new use, or increase in acreage cultivated from 1-10 ac to 10 times that acreage (10-100 ac), 10-100 ac to 5 times that acreage (50 to 500 ac), or >100 ac to 2.5 times that acreage. | | | | | | | |
| | Yes | Use the Predictive Tool | | | | | | |
| | ✓ No | Go to question I-a 2 | | | | | | |
| 2. Does this species occur in any natural areas of Florida? | | | | | | | | |
| | Yes | Attach distribution records and Go to question I-a 3 | | | | | | |
| | ✓ No | Go to Section A | | | | | | |
| 3. | Does it ONLY occur in natural areas of Florida because it has persisted from its previous cultivation? | | | | | | | |
| Yes Attach evidence of previous cultivation for each site and G | | Attach evidence of previous cultivation for each site and Go to Section A | | | | | | |
| | No | Go to Section I-b | | | | | | |

| A1 | Does this species hybridize with any Federal or Florida-listed Endangered or Threatened species, Species of Special Concern, or economically important species (e.g., exhibit pollen /genetic invasion)? | | | | |
| | Yes | Provide <i>information below</i> . Enter a conclusion on page R-17 of No unless limited use approved. Go to Section D for details on how to make a proposal for specified and limited use for the species. | | | |
| | ✓ No | Go to question A2 | | | |
| If yes | s, then <i>provid</i> | e name of listed or economically important species & information sources: | | | |
| A2 | Has this species been introduced to Florida within the last 10 years if herbaceous, or last 20 years if woody? | | | | |
| | Yes | Use Predictive Tool and so indicate on page R-1 | | | |
| | ✓ No | Highlight attached distribution records that show presence in Florida before 10 or 20 years ago or attach other evidence and Go to question A3 | | | |
| A3 | Does this species have a record of causing problems in other regions with similar habitats and climate to Florida? | | | | |
| | Yes | Provide evidence below, Use Predictive Tool and so indicate on page R-1 | | | |
| | ✓ No Enter a conclusion of Not considered a problem species at this time and may be recommended by IFAS faculty on page R-1 but reassess if invasion of natural areas is recorded or within 10 years, whichever is earlier. | | | | |

| Check responses to the following questions for each zone (north, central, south) separately. | | | | | | | |
| For "Yes" responses to questions 1-3, <i>distributional evidence of invasion</i> (forming self-sustaining and expanding populations within a plant community with which it has not previously been associated) <i>must be attached and distinguished for each zone</i> . | | | | | | | |
| Does species exist in areas outside its current, or former, cultivation in this zone? If Yes Go to question I-b 2 If No Go to question I-b 4 | North Yes No | Central Yes No | South Yes No | | | | |
| Is species invading in this zone ONLY when natural disturbance regime and scale have been altered? If Yes Go to question I-b 3 If No (or unknown) Go to Section II-a | North Yes No | Central Yes No | South Yes No | | | | |
| 3. Has this species ever been known to persist if the natural regime is resumed and the natural flora/communities recover? If <i>Yes</i> (or unknown) Go to Section II-a If <i>No</i> Go to question I-b 4 | North Yes No | Central Yes No | South Yes No | | | | |
| 4. Are there other zones in which this species has invaded or persisted after restoration? If Yes indicate I = 0 for this zone on page R-1 then Go to Section III-b If No Go to Section A | North Yes No | Central Yes No | South Yes No | | | | |
| Section II-a is on page R-5, Section III-b is on page R-10, Section A is on page R-3 | | | | | | | |
